Description

When the image detail is opened, you will find two boxes available:
- CAPTIONS
- CATEGORY

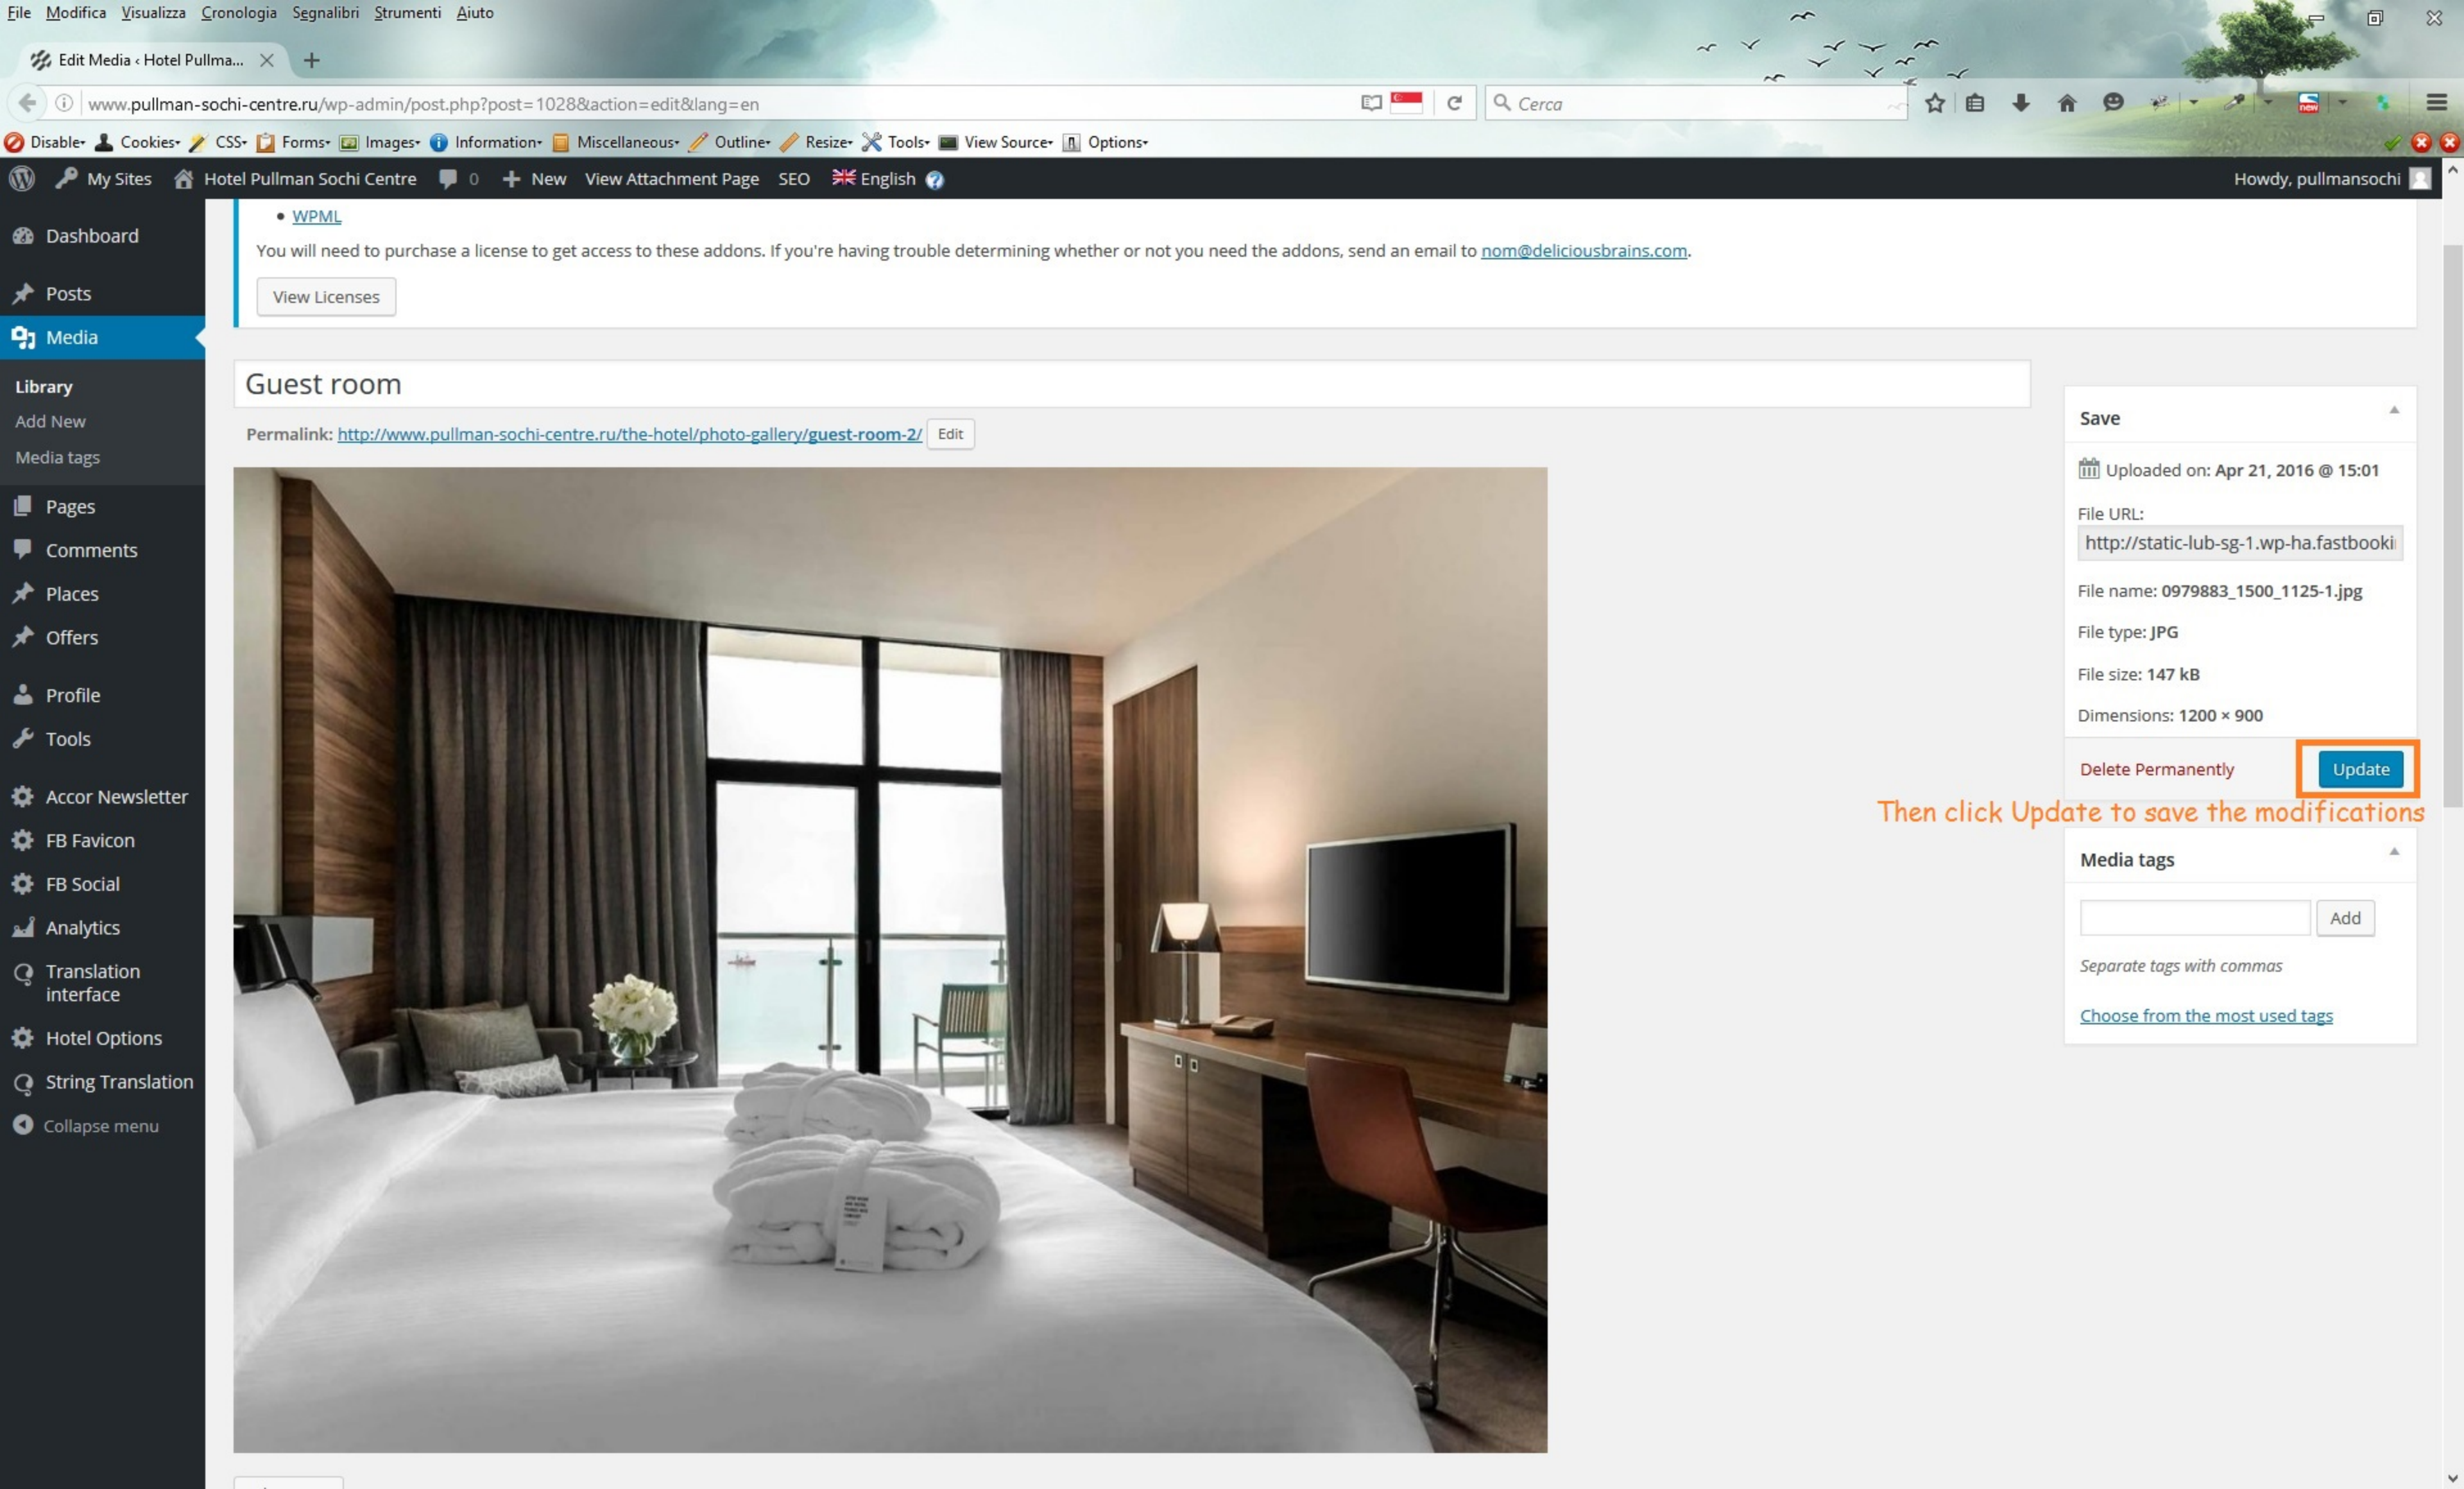

Captions	
Caption en	<input type="text" value="Suite Superior"/>
Caption ru	<input type="text" value="Homepa"/>

For both languages you can edit the description (caption) or change the category name.

ATTENTION If you decide to change the category name, you have to do it in the same way for ALL PICTURES that will belong to that category.

Category	
Category en	<input type="text" value="Guest room"/>
Category ru	<input type="text" value="Homepa"/>

For example if you type as a new category "Room" and on other pictures you type "Rooms" the website will create two different categories.
