

YOU CHOOSE, WE COOK!

Farmers' Basket at Pluck is a dynamic place
where food is talked about almost as
enthusiastically as it is consumed.

WE ARE ALLSAFE CERTIFIED!

*Welcoming, safeguarding, and taking care of others is at the very heart of what we do and who we are.
The ALLSAFE label represents our new elevated cleanliness protocols and standards have been met in our hotel.*

An innovative concept, wherein we bring the marketplace into the restaurant with a philosophy of YOU CHOOSE, WE COOK. Guests can select a wide range of fresh & organic raw materials and ingredients for dishes on their own, select the cooking & cuisine style – Indian, Asian or Continental and our team of culinary experts will cook sumptuous dishes as per your preference - taste, spices, preparation etc.

In our endeavour to promote 'LOCAL' growers and agriculturalists - A high proportion of the produce used in the dishes is sourced directly from our own 5000 sq. ft. kitchen garden, the local farmers, small-scale artisan producers and harvest traders; alongside regional specialities from around the world.

Furthermore, relish a spectacular touchless buffet with global and regional cuisines, along with retailing preservative free-garden-fresh veggies, herbs & spices, meat & poultry and home-produced pickles.

EXPERIENCE

Alfresco Dining!

The phrase “al fresco” is Italian and when translated in English it means “in the fresh/open air”

Al Fresco dining is always trendy and there’s nothing better than dining outdoors.

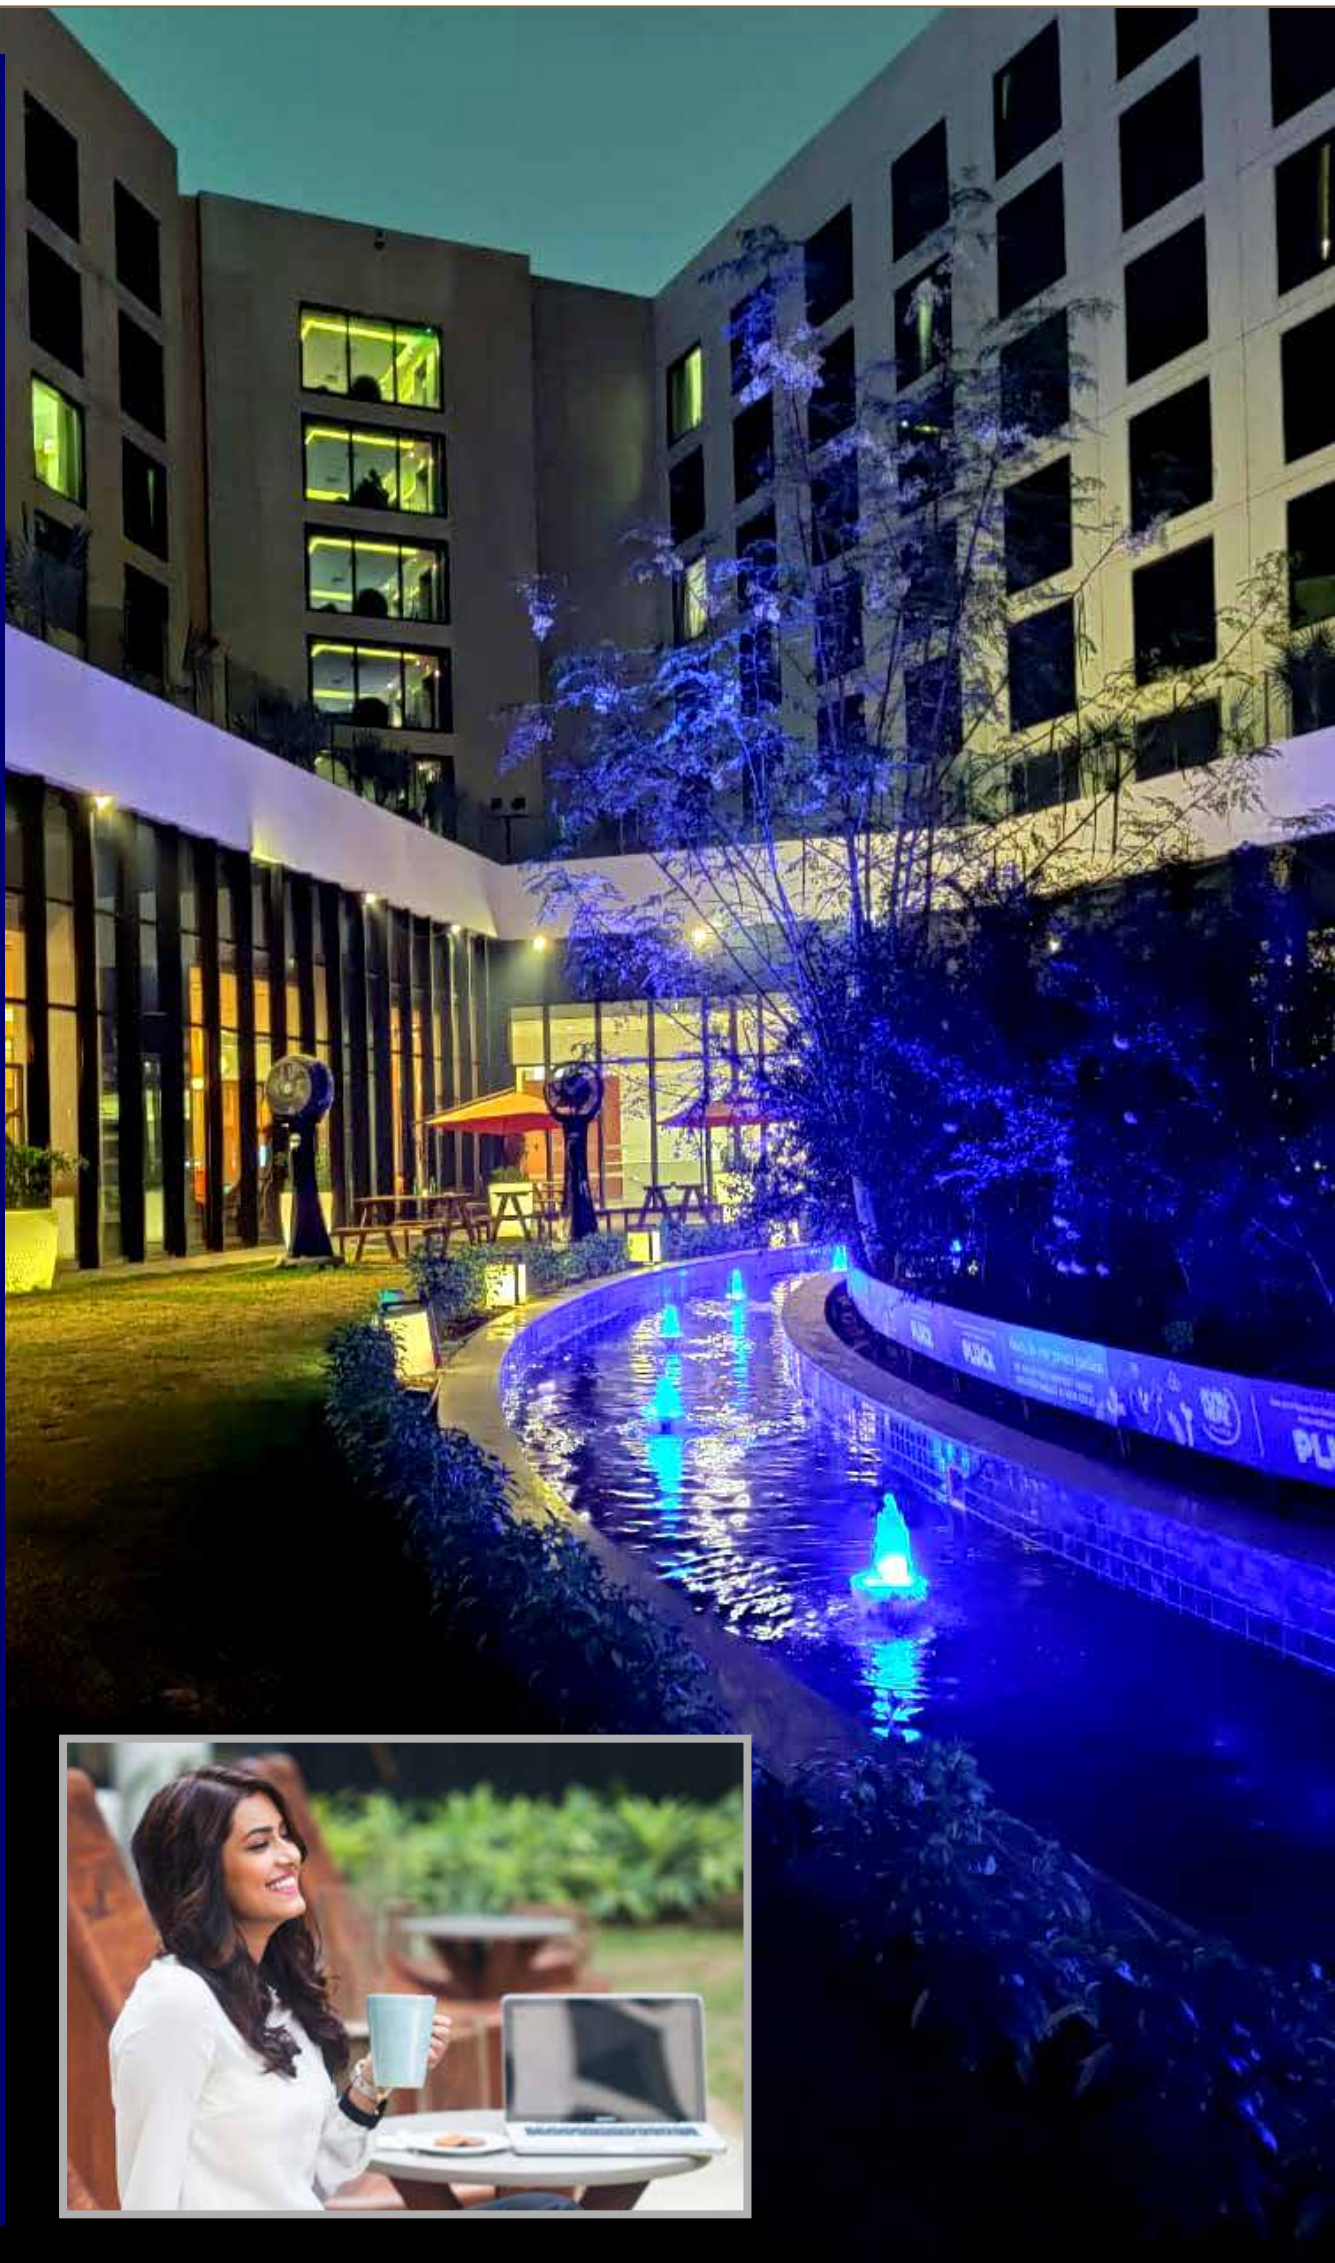

Today’s diner wants an experience and they are eager for a chance to take a seat outside at their favourite restaurant and enjoy a meal with scenic views.

Diners can take advantage of the outdoor scenery sitting around our 5000 sq. ft. Kitchen Garden where we grow our own fresh, organic and seasonal produce. OR enjoy seating at our Central Courtyard with sumptuous asian meal from Honk and a warm cuppa from Cafe Pluck.

The outdoor seating at Pullman & Novotel New Delhi Aerocity is spacious & well-ventilated and Mother Nature provides its own ambiance and great views.

Patrons definitely enjoy eating outdoors in a more festive atmosphere with beer garden style bench seating and garden patio tables.

As the season gets pleasant, enjoy winter grills and barbeque which adds more charm to it. A feast full of flavours & grilling, relish the appetizing cookout with your friends or family.
