An Urban Wellness Hub amidst Tropical Vibes

Our brand story begins with a vivid imagination from our team of wellness visionaries of having a wellness 'HUB' where guests can find multitudes of therapeutic and aesthetic offerings to improve their well-being, reconnect with nature and rediscover their inner peace. Vibes captures the vibrancy of nature found in tropical rainforest that exudes the warmth and soothing ambience, juxtapose to the bustling urban surrounding. Inspire by the lush, beautiful tropical forests, rich in life-sustaining bio-diversities, natural springs rich in trace minerals and centuries-old traditional wellness rituals,
we created Vibes as a nurturing space where urbanites can take a respite and be recharged!

We engage local spa artisans to develop our products which ethically sourced from local farmers in-line with our aim to maintain sustainability and giving back to the community. To keep-up with current wellness trends, we curate several cutting-edge facilities such dry floatation (aquatherapy), Himalayan Salt Alcove and Onsen-like Galaxy Pool with chromatherapy and mineral infusion.

All of our treatments and packages are customized for each guest. Spend time with our spa associates as they perform a thorough consultation to understand your needs and concerns, before creating a bespoke treatment or package, drawing from various types of massage, body treatments and facial selections to suit your requirements.

Here at Vibes, we open the gateway to commune with nature and experience a memorable wellness journey experience to enhance the body-mind-soul inter-dependence.

get your vibes...
