Non-alcoholics

Our beverage menu features a range of non-alcoholic options made with fresh, locally sourced ingredients. From mocktails to aperitifs, our playful and mischievous drinks are sure to please.

Mocktails

Appalachia

19

A crisp mocktail that highlighting the natural sweetness of fresh apple juice lifted by a bright splash of lemon. Bringing a smooth and balanced profile with a hint of honey. The refined finish gives depth and complexity from bitter.

PlumSour

18

Tangy plum, zesty lemon, and sweet syrup, finished with a kiss of plum salt – a playful balance of sweet, sour, and savoury.

Spiced Apple Crumble

18

A mocktail that blends sweet and spicy flavors. It's made with apple juice, cinnamon syrup, and lemon juice. The cinnamon syrup adds a cozy flavor, while the lemon juice balances the sweetness of the apple juice. The result is a perfectly balanced and refreshing mocktail.

Sour Blush

19

A ruby-red mocktail that balances the tart freshness of cranberry juice with a zesty squeeze of lime. A touch of honey syrup adds smooth natural sweetness to minimise the sharp edges. Shaking with egg white, presenting a silky texture and a delicate frothy crown, making it both refreshing and elegant.

Tea Fashion

14

Inspiration from Classic Old Fashion. An elegant smell from orange and angus bitter with hint of sweetness mixes the flavour of black tea. Well-balanced texture and long finishing feature an enjoyable moment.

All mocktails come with the option to add a shot of House Gin or Vodka for \$9. Alternatively, upgrade to a premium spirit to enhance your beverage choice!

Water

"A Rock and a Hard Place" is harvested from a naturally flowing spring near the top of Mount Lofty.

This is an ancient aquifer and the water takes thousands of years to reach the surface. The water pushes up through the layers of sandstone which acts as a natural filter and results in this beautiful, clean water. The fact that this is a natural spring water as opposed to rainwater or purified water is what gives it a clean mouth feel and retains its natural mineral content.

Everything is done locally with as minimal environmental impact as possible.
