CIAWI VIMALA HILLS  
RESORT

HOTEL BROCHURE

## SHIFT IN ALTITUDE. SHIFT IN MINDSET.

600 meters above sea level, Pullman Ciawi Vimala Hills invites a different way of arriving. The air feels cooler, the horizon wider, and the pace instantly recalibrates. Contemporary architecture opens itself to the surrounding highlands, where glass, light, and landscape flow together in quiet harmony.

Just an hour from Jakarta, and within easy reach of Bogor and Puncak, the resort is less about distance and more about perspective. A place where modern travelers step out of the city's rhythm and into something lighter, clearer, and unexpectedly refreshing.

# WHERE THE CITY QUIETS AND NATURE SETS THE PACE

Set within the lush highlands of Vimala Hills in Gadog, Bogor, Pullman Ciawi Vimala Hills rises 600 meters above sea level, where cooler air and open horizons instantly shift the rhythm of the day. Spanning 14 hectares and standing as the only international premium-scale resort in the area, the destination is framed by the majestic presence of Mount Salak, Mount Geulis, and Mount Pangrango.

Here, nature is not simply a backdrop. It becomes part of the experience. Expansive landscapes, tropical mountain breezes, and sweeping views invite guests to slow down, breathe deeply, and reconnect with a calmer perspective.

Visionary in concept and thoughtful in execution, the resort embraces openness, light, and fluidity. Contemporary architecture follows the natural contours of the tiered landscape, creating seamless connections between indoor and outdoor spaces. Chic yet relaxed interiors are enriched with subtle Indonesian influences, while generous open areas welcome natural daylight and refreshing highland air throughout the day.

Here, modern design and natural serenity come together to create an immersive retreat where every space invites guests to see, feel, and experience the mountains differently.

# PRIVATE SPACES. WIDE HORIZONS.

Indulge in a harmonious fusion of contemporary sophistication and traditional Indonesian. Rooms and villas at Pullman Ciawi Vimala Hills are designed to open outward. Expansive balconies extend living spaces into the highland landscape, where cool mountain air and shifting views become part of the daily rhythm.

Inside, contemporary design meets the quiet richness of Indonesian craft. Warm wood textures, clean lines, and thoughtful detailing create an atmosphere that feels both refined and relaxed. Signature Pullman beds anchor the space with exceptional comfort, while chic bathrooms with rain showers invite moments of calm and renewal.

Technology integrates effortlessly with the experience through interactive Smart TVs and high speed Wi Fi, ensuring every stay remains both connected and seamless.

Beyond the interiors, the landscape takes center stage. Mount Salak rises on the horizon, while pools, rice fields, and lush gardens unfold across the resort's terraced grounds. Each room becomes its own window to the highlands, where the scenery evolves with the light and the pace of the day naturally slows
