

## Fairmont Singapore

### Timeless elegance and unforgettable luxury in the heart of Singapore

The 5\* Fairmont Singapore is strategically located in the heart of the city' s Civic District, where business, culture, history and lifestyle take centre stage. Offering unparalleled views of the harbour and iconic Singapore skyline, the I. M. Pei designed hotel has been transformed in partnership with award-winning Hirsch Bedner Associates to curate a bespoke and unforgettable guest experience.

### Design Intent & In-Room Highlights

The refurbished South Tower presents a new era in design for Fairmont Singapore. Conceptualised with today' s global traveller in mind, each brand-new guest room and suite presents a sophisticated and refined interior with a focus on timeless elegance and thoughtful luxury. Designed to frame the iconic city landscape, the refreshed space marries dark wood panels, warm whisky hues, herringbone tweeds and opulent leathers for a functional yet luxurious experience. The spacious yet inviting en suite bathrooms, complete with immersive rain showers, take on softer tones with natural marbles and illuminating lighting.

Thoughtful and detail-oriented hospitality is at the centre of the Fairmont brand and this was a key motivation in the transformation. With every room, a beautifully detailed black lacquer cabinet sits as a focal point, opening up to reveal a Maxi Bar, an elaborately appointed bar offering. Paying homage to the communities which have come to define Singapore, the rooms are adorned with bespoke

furniture pieces and artworks that celebrate the city' s heritage.

Setting a new benchmark in sustainable hospitality, Fairmont Singapore has installed a Swisspro tap in all rooms. Guests now have access to unlimited filtered water, limiting single use plastic waste.
