Sustainability Management Plan

Pullman Maldives Maamutaa – Sustainability Management Plan

PURPOSE:

The Sustainability Management Plan is to ensure that decision-making within our group contributes to achieving its objectives, in order to improve its sustainability, reduce its long-term environmental impact and increase the welfare of employees, guests, and of the environment that surrounds us. The Sustainability Management Plan is to guide the daily operations of the business in a sustainable manner. In considering the environmental, socio-cultural, quality, and health & safety issues.

Energy Conservation objectives

- Green energy utilization.
- Reduction in the amount of CO2 emissions.
- Optimize the energy efficiency of plants.
- Reduce energy expenditure.
- Waste management objectives:
- Reduce water expenditure.
- Reduce the amount of non-recyclable waste.
- Increase the amount of waste that we recycle.
- Improve the results obtained in previous years.
- Achieve Green Globe certification for the property.
- Lead the decision-making process to be more sustainable.
- Develop a business strategy based on sustainability, quality, safety & health.

Satisfaction goals:

- Increase commitment to our customers
- Increase customer satisfaction measured by surveys.
- Provide clients with information on good waste management practices.
- Provide clients with information on Company's CSR projects.

Training objectives:

- Raise awareness of the company's CSR workers.
- All workers are aware of environmental policies.
- Conduct Recycling training for colleagues.
- Train a minimum of 1 department per year in sustainability

Pullman Maldives Maamutaa – Sustainability Management Plan

The scope of the Sustainability Management Plan covers all activities at Pullman Maldives Maamutaa Resorts, and Its Integration with all colleagues, customers and guests, business partners, owners, other stakeholders, and the environment at large.

REFERENCE:

Green Globe Certification Standard and Guide to Certification.
Acting here Planet 21

PULLMAN MALDIVES MAAMUTAA HOTEL AND RESORT VISION:

We consider Green Globe as the premier global certification for sustainable travel and tourism. Green Globe Certification offers the world’s most recognized and longest-running program allowing us, as one of the green leaders in the travel and tourism Industry, to confidently promote our environmental credentials along with our commitment to the people and prosperity of our location.

That is the reason why we took up the challenge and wish to obtain Green Globe certification for our property in Maldives Maamutaa . It Is our aim to continually implore our sustainability efforts and to achieve In a consistent way Improvement in connection with our yearly renewal.

Sustainability within Pullman Maldives Maamutaa Maldives Resorts a defined as “carrying out its business in line with our company’s guiding principles of being conscious of global environmental issues and acknowledging our responsibility towards the environment. While the well-being of our guests remains at the forefront, we commit ourselves to carry out operations in a sustainable manner, taking every step to minimize operational Impact on, and preserve the environment wherever we operate. “

Pullman Maldives Maamutaa – Sustainability Management Plan

We believe, our guests, staff, and environment are equally important. Our Sustainable Management Plan ensures colleagues, customers, business partners, owners, other stakeholders, the environment, and the property are taken care.

Our Sustainability Management Plan encompasses four key areas:

- I. **Environmental** - to be actively involved in conserving resources, utilizing renewable energy to the extent possible, reducing pollution, and conserving biodiversity, ecosystems, and landscapes.
- II. **Socio-cultural** - to be Involved in corporate social responsibility actions, community development, local employment, fair trade, respect for local communities, and colleague protection. Being involved with activities to support the local community
- III. **Quality** — any activity that can sustain itself economically through creating competitive advantages within the industry with inspired service that not only meets but exceeds guest expectations; it continues to contribute to the economic well-being of the surrounding community through local ownership, employment, buying local products, etc. A sustainable business should benefit its colleagues, customers, business partners, owners, and other stakeholders.
- IV. **Health & Safety** — Pullman Maldives Maamutaa Hotels and Resorts complies with all established health and safety regulations and ensures that both guests and colleagues' protection instruments are in place.

A. SUSTAINABLE MANAGEMENT

A1. Improvement of a Sustainable Management Plan:

Our properties shall establish and maintain the SMP complying with the requirements included in this section. Our properties will provide and write Policies and Procedures that:

- a. are appropriate to the nature and scale of the organization's activities;
- b. are aligned with the four key SMP areas i.e. Environmental, socio-cultural, quality, and health & safety
- c. Include a commitment to continual improvement of the SMP
- d. Include a commitment to comply as a minimum with the current applicable legislations, regulations, and other requirements to which the organization subscribes;
- e. provides a framework for setting and reviewing SMP objectives and targets;
- f. are documented, Implemented, maintained, and communicated to all colleagues;
- g. are available to all interested and affected parties; and
- h. are reviewed periodically to remain relevant and appropriate to the organization's SMP

Pullman Maldives Maamutaa – Sustainability Management Plan

A2. Renewable Energy Initiatives

Initiated projects to install Solar PV panels on all available rooftops in Pullman Maldives Maamutaa property. Solar power plants have already been commissioned. We strongly believe that relying more on renewable sources of energy is the only right way forward, hence one of the main objectives for Pullman Maldives Maamutaa is to generate energy by utilizing solar panels as per the capacity of panels.

A3. Legal Compliance

The Resort is licensed according to the law of the Republic of Maldives and in compliance with all relevant international or local legislations and regulations, including health, safety, labor, and environmental aspects, and insurance policies and other guest and colleague protection Instrument are up to date and in order.

A4. Colleague Training

Colleague hiring, training, annual appraisal, and performance review, at our properties, are in line with the corporate competencies and competency models, based on the company's beliefs and expectations. We strongly believe that as a growing company it is important to follow all the processes, to achieve a healthy and balanced team, by encouraging internal development and growth.

A5. Customer Satisfaction

Our properties monitor customer satisfaction by receiving feedback in different ways and platforms. We strongly believe, accept, and work with any kind of positive or constructive feedback provided by our guests.

Besides customer satisfaction, we also review and monitor internal quality performance and satisfaction. Some of the tools used for monitoring and reviewing the same are:

- a. Customer Commented
- b. An instant guest feed back log
- c. 24 – 48 hours' feedback
- d. Guest emails
- e. All 3rd party online platforms such as TripAdvisor, Booking.com, and all social media channels.

Pullman Maldives Maamutaa – Sustainability Management Plan

A6. Accuracy of Promotional Materials

All communication regarding promotional material at our properties goes through the Sales and Marketing team and is in line with the company standards, local regulations, and cultural norms.

We do not overpromise or mislead our guests, promotional materials are truthful and do not promise more than can be reasonably expected by customers.

A7. Local Zoning, Design and Construction

Our Property located on an uninhabited island which may have been operating as another resort previously. No local significant sites, water courses, wildlife of any sort, vegetation, or residents would have been disturbed in an adverse manner.

Ongoing maintenance and repairs are performed regularly. The refurbishments, if any, include re-using as much of the original structure as possible, incorporating local design and architecture (i.e. Thatch roofing, dhoni-shaped masts, coir, wood, and bamboo), and renovation/interior design is always performed with the purpose of being as sustainable, energy saving and long-lasting as possible, and includes the use of environmentally sound materials.

A8. Interpretative Tourism

We inform our guests about the local environment, local culture, and cultural heritage through various means; may it be electronic or something as simple as a friendly dialogue with guests. As the Maldives is predominantly a Muslim country, guests are made aware of the local culture during the holy month of Ramadan as special emphasis is made on the period of fasting of colleagues.

Special Maldivian-themed nights are held in the main restaurant every week, Thursday being the sea food night, in which local people wear traditional clothes and perform for the guests, and try and involve them as much as possible.

On arrival at the resort, each guest is greeted with the sound of Bodu-Beru (traditional Maldivian drums).

Various expedition packages are available with the Resorts to visit nearby local islands so that guests are able to experience the real Maldives, interact with the local community and support local businesses like handicrafts, and other souvenir shops.

Pullman Maldives Maamutaa – Sustainability Management Plan

A9. Communications Strategy

We communicate with our guests and visitors to the hotel and the website in a comprehensive manner. Our implementation plans and, strategy for a sustainable operation are clearly defined, as well as our involvement with the local community and other charity work.

Our sustainable operations involve our guests, example: we have placed digital information by Guest room Television channel in order to give our guests an option whether or not they want the bed linen and/or towels to be replaced for the day, hence, providing them with an opportunity to play a direct role in water and energy conservation.

Through our “Digital information by TV channels”, guests were informed about energy and water conservation practices, and waste management initiatives and were also reminded of the damage inflicted on fragile coral if one stands on them, and the need to protect the ecosystem around the island.

In the same way, guests are also politely requested to not collect or remove shells from the beach, even empty ones, as they could be the homes of hermit crabs.

A10. Health and Safety

We follow strict environment, health, and safety laws, regulations, and procedures to conserve and protect the environment and create a workplace where we bring the best out of our colleagues whilst avoiding the risk of injury.

Colleagues are appropriately trained so as to make them aware of the health and safety issues while working and guests are made aware of hazards by using appropriate signage and other forms of communication.

Purchasing and operating policy for all mechanisms, equipment, and facilities is that they are as environmentally friendly as possible: low emission and consuming minimum energy.

Another requirement we try and meet is to procure goods and equipment which are durable and long-lasting.

We have an experienced team of engineers and technicians who maintain the facilities and equipment so that we have constant checks on them being in good working condition. All necessary and mandatory safety requirements for the same are in order, such as Risk Assessments and the use of Personal Protective Equipment.

We have engaged the services of a Food Safety Company - EHC - who certified HACCP for Pullman to ensure the food safety compliance systems are in order. New kitchen colleagues are trained on safety and procedures and must undergo a mandatory basic food hygiene course in food handling.

Highlights •

Guests are made cautious by posting safety instructions in the villas and other public areas.

- Swimming pool depth is clearly marked including pictorial NO Diving Signs, life rings, and notice boards
- Basic Health and Safety training, fire training, and evacuation drills are conducted regularly for colleagues.
- Safety stickers are placed on all full-length glass.
- All paint is environmentally friendly, lead-free free, with low VOC content.
- An active in house system is in place whereby colleagues are trained to report any malfunctions and leaks
- Immediately, and there is a good follow-up system to ensure the works are carried out satisfactorily.

Pullman Maldives Maamutaa – Sustainability Management Plan

A11. Disaster Management

In the Maldives, Tsunami is a real threat, our properties take them very seriously their Disaster Management plans, taking into account the three R's — Readiness; Response; Recovery. Fire Safety: the resort uses the services of a third-party Fire company to inspect, analyze, advise, train, and certify all colleagues. Yearly drills are held involving all staff, where a real disaster is simulated and practice responses are undertaken. All drills are observed by independent parties and observations and reports are written.

B. SOCIAL/ECONOMIC

B1. Community Development This section is supported by the Accor CSR policy; the policy states that the Company recognizes its role and responsibilities in contributing to the sustainable development of the communities in which it operates. This policy aims at maximizing the return on Community Investments and their impact on the local community. Through our community investment initiative, we have identified unique areas of involvement where we can actively support our local communities and engage in a mutually rewarding way with our stakeholders.

Education: Supporting initiatives focused on vocational training and skills development that improve employability in the tourism and hospitality sector. This is done by taking on interns from local educational establishments and supporting their growth and development. Further job opportunities are offered within the company.

Healthcare: Supporting initiatives aimed at enhancing the health and well-being of local communities. We look into schemes of donating and sponsoring the health facilities at local islands.

Cultural Preservation:

Supporting initiatives aimed at enhancing the ability of small businesses that are strategically linked to business needs to perform more effectively in order to create economic growth. We regularly buy from local producers and support local fishermen.

Environmental Protection:

Supporting initiatives that help protect the integrity of the environment. In collaboration with PADI Maldives or a similar third party, we are committed to protecting and maintaining our marine environment, chiefly our house reef, which is constantly rated as one of the best snorkeling/diving spots in the Maldives. We engage a third party to conduct yearly checks of the health of the reef and are proud to say that until now, we have consistently maintained the biodiversity. Additionally, we have initiated a program to catalog all the marine species that are found in our waters, which will aid in our conservation and education efforts.

We also want to support initiatives that use innovative products and services to help solve environmental problems

Pullman Maldives Maamutaa – Sustainability Management Plan

B2. Local Employment

Pullman Maldives Maamutaa Resort proactively supports the recruitment and development of Maldivian nationals at various managerial level positions across its operational and support functions, with a view that such Maldivian nationals will be supported, mentored, and guided to grow and move into leadership positions across the company.

The element of local employment is supported by:

- Equal Employment Opportunity policy (part of the Business Ethics and Conduct Policy)
- Code of Conduct policy (part of the Business Ethics and Conduct policy)
- Corporate Social Responsibility Policy
- Workplace Health and Safety policy

B3. Fair Trade

Fairtrade within our properties is driven by the “Procedure Goods & Services” process in the Maldives wherein resorts ensure the use of the right methods to select suppliers and procure goods and services at the right quality, price, time, source, and delivery while protecting the company.

Our Policy:

“We at Pullman Maldives Maamutaa Resorts ensure that all processes are done in compliance with relevant laws and consistent with ethical, social and environmental standards.”

B4. Local Entrepreneurs

Pullman Maldives Maamutaa Resort does not engage with local entrepreneurs dealing with historical artifacts. Moreover, it is not permitted by law.

It is worthwhile to state that we do engage in organizing events and activities that portray the local culture, especially during Ramadan, Eid, and Maldives National Day. Local craftsmen and businessmen are brought and encouraged to visit our properties to enable them to enhance their living, giving guests a chance to interact with them, and learn about local cultures.

B5. Respect the Local Population & Culture

As stated earlier the Maldives is predominantly a Muslim country and as such guests and colleagues are made aware of the local culture. All efforts are made, where applicable, that due respect is given to the local values and beliefs, and we commit to safeguarding the Maldivian culture and ensuring that the local community shares in the benefits of tourism.

Pullman Maldives Maamutaa – Sustainability Management Plan

B6. Exploitation

Our properties are in strict compliance with the Maldives Labour Law. Hence, appropriate policies are in place against the employment of children, sexual harassment, and exploitation.

The element of avoidance of exploitation is supported by:

- Equal Employment Opportunity policy (part of the Business Ethics and Conducts Policy)
- Code of Conduct policy (part of the Business Ethics and Conduct policy)
- Harassment Policy
- Maldives Labour Act

B7. Equitable Hiring

Pullman Maldives Maamutaa Resorts promotes diversity and equality on all levels of the business, and no colleagues or applications are discriminated against in any way. All positions are filled on the basis of competence. Our hotels adhere to all local laws and regulations concerning labour laws and offer conditions and wages superior to the minimum requirements.

Pullman Maldives Maamutaa Resorts employ people of many nationalities — currently, we have no less than 28 different nationalities on our properties. Women candidates are encouraged to apply across all levels of the business.

The Maldives has strict labour law-related issues, which we adhere to in full.

B8. Colleague Protection

Salaries and benefits meet national regulations, and all payments required by law into insurance and pension funds are made on behalf of all colleagues. Overtime is paid for hours worked beyond the established work in accordance with Maldives labour law. Week hours and working hours do not exceed the legal maximum established by the labour law, but being the hospitality industry at times a need might arise to work additional hours, colleagues are accordingly remunerated as per the policies outlined.

To further enforce colleague protection at our properties, the welfare Committee comprising of employees of all levels and the management holds regular meetings and assure that any concerns or ideas from any colleague are given due consideration and actioned on if possible.

Pullman Maldives Maamutaa – Sustainability Management Plan

B9. Basic Services

The activities of the business have not impacted or jeopardized resources or services in the local area or neighboring communities in any negative manner. The activities of the business generate a number of secure jobs and reflect a positive influence on the community.

B10. Local Livelihood

Since our resorts are located on independent islands, and the business encompasses the entire island, its activities do not affect any of the other islands around. Access to land, water, housing, right-of-way, and transport for any neighboring communities has not been impacted at all. On the contrary, the activities of the business contribute to the economy of neighboring islands by creating jobs and buying from them.

B11. Corruption and Bribery

Pullman Maldives Maamutaa Resorts prohibits all forms of bribery, directly or through third parties, including employees from soliciting, arranging or accepting bribes.

No direct or indirect contributions to political parties, etc, are made, as a way of obtaining an advantage in business transactions.

The Resort will not deal with contractors and suppliers known or reasonably suspected to be paying bribes. Due diligence is undertaken in evaluating prospective contractors and suppliers to ensure that they have an effective anti- bribery Program.

The element of avoidance of bribery and corruption is supported by:

- Code of Conduct policy (part of the Business Ethics and Conduct policy)
- Gift policy
- Anti-bribery and corruption policy

Pullman Maldives Maamutaa – Sustainability Management Plan

C. CULTURAL HERITAGE

Our colleagues are trained to guide guests towards the cultural sights and events and/or entertainment/restaurants that the guests are most interested in. Local Maldivian culture and idiosyncrasies can be explained and discussed with guests, but mainly in a nice-to-know form, as the culture is significantly different from anywhere else in the western/developed part of the world, from where we have a substantial number of guests coming from.

Guests can watch from in house digital TV channel # 1 through the basic do's and don'ts in our in-house a direct stream that contains the resort's environmentally conscious literature containing information on the resort's sustainability initiatives **Planet 21**, what they are doing for the environment, and how guests can help.

Historical and archeological artifacts are not sold, traded, or displayed. The business complies with laws, standards, and regulations concerning the protection of historical sites and cultural heritage.

Goods that are protected and may not be bought or taken are communicated to guests through in-house literature. The Maldives is a treasure of marine diversity and fragile coral and their protection and natural growth is publicized as much as possible.

The villas and all public areas are of rustic ethnic charm and blend in naturally with the surroundings and landscape. The scenic beauty of the Maldives is enhanced through our thoughtful architecture and design of structures.

Pullman Maldives Maamutaa – Sustainability Management Plan

D. ENVIRONMENTAL

Our Resorts source and obtains many locally produced goods including watermelons, papayas, kurumba, bananas, and many others which have been grown organically. Freshly caught fish using the pole and line method is brought directly to us just off the sea by local fishermen every day.

As much as possible, we favor suppliers who conduct their business in a responsible and ethical manner. We buy in bulk to reduce packaging waste. We prefer products that are ecofriendly, bio-degradable, made from recycled material, and have minimum impact on the environment.

We do not use any invasive alien species in our gardens and landscapes, we also minimize the trimming and try to keep the native vegetation as undisturbed as possible. Measures are taken to prevent the introduction of pests and exotic species.

No captive wildlife, endangered species, products thereof, or any form of unethical items are used, sold, or allowed on our Resorts.

Our business activities do not impact the habitat of local wildlife or plants, appropriate measures are taken to minimize noise, chemical pollution; artificial lighting from having an impact on wildlife.

Endangered species, products thereof, or items stemming from unsustainable practices are not sold, traded, or displayed on the property's grounds.

Guests are provided with information about protected areas within the property's influence zone and encouraged to visit protected areas.

Guests are provided with information on native wildlife and plant species found in the area through our Green Book.

The element of environmental protection is supported by:

- Environmental Policy
- Pollution Management Plan
- Landscaping Policy
- Biodiversity Policy
- Green Book

Pullman Maldives Maamutaa – Sustainability Management Plan

This concludes the Sustainability Management Plan for Pullman Maldives Maamutaa in 2022.

We are fully aware that sustainability is an ongoing journey; therefore the Sustainability Management Plan will be reviewed annually.

The resorts will continuously measure and monitor the following at planned intervals to verify that we are achieving continuous improvement in the field of sustainability:

1. Electricity consumption
2. Water consumption
3. GHG emission
4. Amount of waste generated by the resort

Our Sustainability Management Plan is supported by the following Policies and procedures along with other supporting documents:

1. Environmental Policy
2. Health and Safety Policy
3. Business Ethics and Conduct Policy
4. Waste Management Plan
5. Environmentally Preferable Purchasing policy SO. Environmental Impact Assessment Report
6. Landscaping Policy
7. Pollution Management Plan
8. Disaster Management Plan
9. Green Book
