# bittersweet

**SIAMAYA**

The perfect way to experience Thai cacao, Bittersweet bar use 70% dark chocolate bar bursts with subtle, yet rich and exciting taste of the nutty and earthy, and slightly bitter from Siamaya Chocolate.

Siamaya Chocolate was founded in Chiang Mai in 2017 by Kristian Levinsen and Neil Ransom. Their bean-to-bar chocolates are made from Thai cacao beans locally sourced from reputable suppliers, and no additives are used in the manufacturing process. Focusing on sustainable farming and the transformation of cacao into delectable chocolate bars, Siamaya Chocolate constantly works to reduce the environmental footprint by using recycled paper, soy-based inks, reducing waste streams, and lowering the electricity consumption.

Bitters occupy a curious niche in the history of food and drinks, especially given their early history as patent medicines with rather dubious reputations. Take one of the oldest, Angostura. Originally, the company's greenish-tinted bottles contained an herbal concoction made from roots, bark, and spices.

The "Aromatic Bitters" took their name from the Venezuelan city where they were first created (Angostura was subsequently rechristened Ciudad Bolivar in 1846). Interestingly, early botanists also gave the name Angostura to three different species of trees, including *Galipea officinalis*. Because the bitters' recipe is a tightly guarded secret, locked in a vault and known by only five employees, whether the trademarked concoction once contained the bark from any of these Angostura's remains something of a mystery.

Around 1824, Johann Siegert, who was a doctor in Venezuela, began making Angostura as a stimulant for the troops to help them with malaria and keep them on their feet. As we get to the golden age of the cocktail, the late 1800s, bitters became more synonymous with cocktails no matter what bar you went to.
