## TEAS / TEH

50

Merrill J. Fernando dedicated his life to tea when in the 1950s, he saw the concentration of ownership in the tea industry in the hands of a few large corporations. This was leading to the commoditization of tea. He decided that in the interest of tea drinkers around the world, and the crop that his country produced with so much care and artistry, he would fight this process of commoditization. Dilmah tea company was the first producer owned tea brand, and offered tea 'picked, perfected and packed' at origin. Unlike the multi-origin blends that monopolized supermarket shelves, Dilmah brought tea that is freshly packed at source and therefore rich in flavour and natural goodness making it one of the finest teas of the world.

*Merrill J. Fernando mendedikasikan hidupnya untuk teh ketika pada 1950-an, ia melihat konsentrasi kepemilikan dalam industri teh di tangan beberapa perusahaan besar ini mengarah pada komoditi teh. Dia memutuskan bahwa demi kepentingan peminum teh di seluruh dunia, dan tanaman yang diproduksi negaranya dengan begitu banyak perhatian dan kesenian, dia akan berjuang untuk proses komoditi ini. Perusahaan teh Dilmah adalah merek teh pertama yang dimiliki produsen, dan menawarkan teh yang 'dipetik, disempurnakan, dan dikemas' di tempat asalnya. Berbeda dengan campuran teh dengan sumber yang berbeda yang memonopoli rak-rak supermarket, Dilmah membawa teh yang baru dikemas di sumbernya dan karenanya kaya akan rasa dan kebaikan alami menjadikannya salah satu teh terbaik di dunia.*

## PROBIOTICS SMOOTHIES & MILKSHAKE

Probiotics are made of good live bacteria and/or yeasts that naturally live in your body. You constantly have both good and bad bacteria in your body. When you get an infection, there's more bad bacteria, knocking your system out of balance. Good bacteria help eliminate extra bad bacteria, returning the balance. Probiotic-supplements are a way to add good bacteria to your body.

*Probiotik terbuat dari bakteri hidup yang baik dan/atau ragi yang secara alami hidup dalam tubuh Anda. Anda terus-menerus memiliki bakteri baik dan jahat dalam tubuh Anda. Ketika Anda terkena infeksi, ada lebih banyak bakteri jahat, membuat sistem tubuh Anda tidak seimbang. Bakteri baik membantu menghilangkan bakteri jahat ekstra, mengembalikan keseimbangan. Suplemen-Probiotik adalah cara untuk menambahkan bakteri baik ke tubuh Anda.*

## FROM THE HARRY'S BOOK

The first print mention of the name "cocktail" appeared in 1798 in The Morning Post and Gazetteer; a long-folded London newspaper, while a name-check in a New York newspaper didn't appear until 1806. Wherever it originated, the work of two men – Connecticut-born Jerry Thomas and Gloucestershire lad Harry Craddock – in putting the classic cocktail on the map is indisputable. The former wrote the first book containing a selection of cocktail recipes in 1862, leading him to be hailed the godfather of American bartending.

*Penyebutan pertama dari nama "koktail" muncul pada tahun 1798 di The Morning Post dan Gazetteer; sebuah surat kabar London yang ternama, sementara nama koktail di surat kabar New York tidak muncul sampai tahun 1806. Dari mana pun asalnya di peta dunia, klasik koktail tidak terbantahkan merupakan karya dua pria – Jerry Thomas kelahiran Connecticut dan Harry Craddock anak laki-laki Gloucestershire – mereka yang pertama menulis buku yang berisi pilihan resep koktail pada tahun 1862, membuatnya dipuji sebagai ayah baptis bartending Amerika.*
