THE APERITIF

CLASSIC COCKTAIL SELECTION

What are Aperitifs?

The word aperitif also refers to a class of alcoholic beverages that are designed to stimulate appetites on their own. It is a very broad category that includes a great variety of styles. The only common ground is that they typically involve herbs or other ingredients that aid in the stomach's digestion of food.

Some aperitifs are distilled
and more of a liquor while others, like vermouth,
are a modified/ fortified version of wine.
