ASIAN INSPIRED CUISINE

WELCOME TO

TAI

Trendy **A**siAn **I**nspiration will reveal to you the richness and simple complexity of Asian cuisine.

As food is a matter of love, novelty and experience our Chef chooses to share with you his favorite dishes from South East Asia with a focus on Thai Cuisine enabling us to select the best locally grown ingredients.

The Heart of Thailand,

The beauty of Thai cuisine is in its variety and wonderful assortment of flavors. Thai food has three levels or tiers: firstly the taste of the ingredients used, secondly the texture of those ingredients and finally the seasoning. The complex and vibrant qualities of Thai cooking are based on the interplay of these components; it creates a locus of flavors within each dish, through its components, producing a complexity that can be dazzling.

At **TAI** we strive to offer Asian specialties and authentic Thai food by taking great pride in offering fresh locally sourced ingredients, prepared in respect of the culinary tradition by our experienced brigade.

Flavors and experience will rule, and the trend going forward is mercifully on the right trajectory.

There is no love more sincere than the love of food...

We are delighted to inform you that we accomodate gluten free and vegetarian dietary requirements. Please ask for our menus selection
