

IN BALANCE

SPA BY NOVOTEL

At In Balance Spa we take care of new customers as well as returning guests. Visiting a spa for the first time can be intimidating, and we want you to feel relaxed when you arrive so we have listed a few ideas below that will make your spa experience go smoothly.

Booking Appointments

Our peak times are in the mid and late afternoon. We recommend calling in advance to ensure that you get the time of your choice.

Punctuality

Please arrive 10 minutes early. We want you not to feel rushed, so that we can also begin on time. If something prohibits you from arriving on time, please call and let us know, we will try to accommodate the later time.

Attire

Our goal is for you to be comfortable, so please wear whatever you feel comfortable in. Many of our treatments do require removal of the clothes, so we recommend that you wear something easy to remove. If modesty is an issue, please remember that our highly trained team will ensure your complete comfort and drape all areas of the body that are not being treated.

Jewelry

If possible, it is always best to leave your jewelry in your in-room safe. You may be asked to remove any jewelry before receiving your treatment. If you do wear your jewelry, just remember to take it with you when you leave.

The Treatments

Your treatment is all about you. Please let us know if you want the therapist to spend more time in a certain area, apply greater or lesser pressure, or simply leave something out of the treatment. Our trained therapists are very knowledgeable and happy to share information and recommendations with you.

Medical Conditions

To ensure your safety and ours, please advise us of any medical issues you may have. Not all treatments are suitable for all clients. Please disclose any concerns before your treatment begins.

Cell Phones

We do our best to offer a relaxing and calm spa environment. Please help us by turning off your cell phone ringer or leaving your phone in your room.

Pre-Treatment

To start many of our treatments we commence with a foot bath of hot water with tamarind and sea salt. Our foot ritual has been developed to improve blood circulation and prepare you for your treatment. Rehydration is also promoted through the use of a refreshing local elixir.

Post-Treatment

Take a few moments after your treatment to allow your body and mind to reach equilibrium, taking in all the benefits from your treatments. Final step is to rehydrate your body with our specially prepared herbal tea. This completes your treatment by helping your body to replenish and rejuvenate.
