# GUEST LIST

A Sofitel Melbourne guest for many years, John Barry Humphries AO CBE is an Australian comedian, actor, satirist, artist, and author describes Melbourne as, ‘*a large provincial english city paradoxically in far southeast asia. She’s a theatrical figure, related to vaudeville in some respects.*’

## BALMAIN PARIS HAIR COUTURE

---

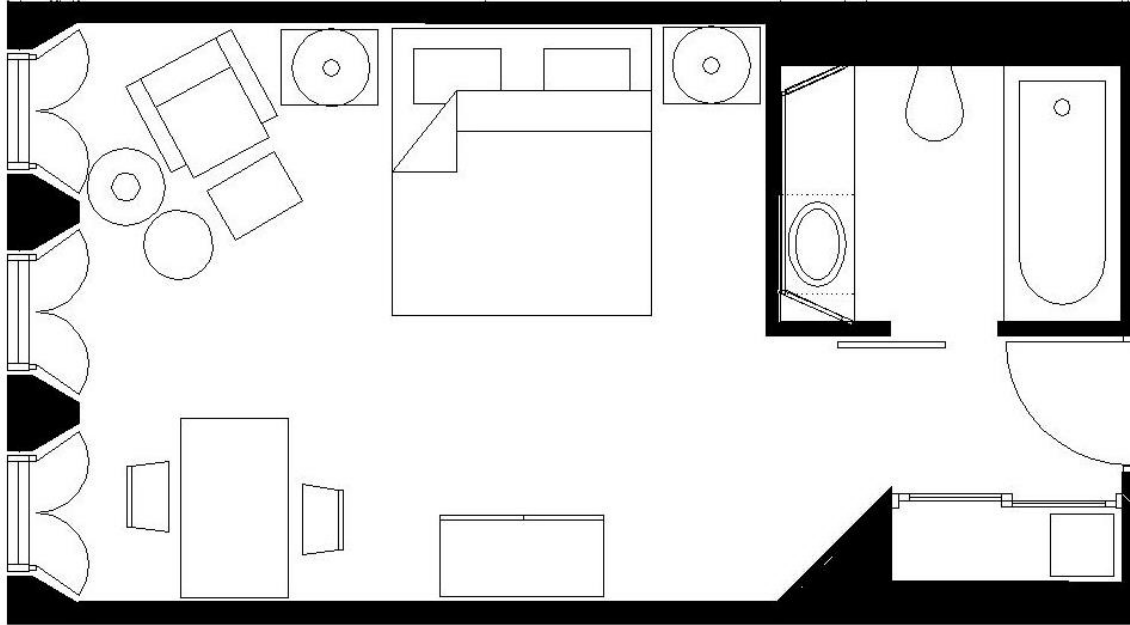

Established in 1945, the quintessentially Parisian House of Balmain has managed to retain its unique position throughout its long history as both a historic French house and as a leading luxurious, trendsetting brand that others look to as a reference.

*“When I talk to our guests, they want luxury. Something they haven’t experienced before. The Balmain Paris Hair Couture has wonderful French heritage. We have it stocked in all our Sofitel hotels around the world and it’s a big reason why people come back, cause they simply can’t get it anywhere else in Melbourne.”*
