

STANDARD OPERATING PROCEDURE

ALL SOP MUST BE COPIED TO FINANCE DEPARTMENT AND EXECUTIVE OFFICE

TOPIC:	« Environmental Policy »		
STANDARD:	«To Provide a Detailed Account of the Hotel's Environmental Policy»		
POLICY CODE:	SUS-001/2023		
ISSUING DEPARTMENT:	Executive Office		
CONCERNED DEPARTMENT:	All Departments cc. GM		
ISSUED ON:	5th September 2023	EFFECTIVE:	9th September 2023
REVISED ON:	03rd November 2025	NO. OF PAGE:	4

Policy statement: We, at Sofitel Phnom Penh Phokeethra, are committed to minimize our impact on the environment through efficient energy, water and waste management and follow the best environmental practices across our entire operation.

We support the above commitment by taking the following actions:

- To comply fully with all applicable legislations
- To meet or exceed all the environmental legislation that relates to our operations
- To minimize our waste by reviewing the purchasing practices and segregate waste
- To reduce, reuse and recycle all waste consumed by our business wherever possible
- To implement training for all team members and communicate with suppliers and guests
- To raise awareness about policies and minimize our carbon footprint
- To implement energy, water and resource conservation programs through innovation and applying best practices
- To establish targets to measure the continuous improvement in our environmental performance
- To monitor and review our environmental performance on a regular basis for achieving our objectives and targets
- To provide environmental awareness training for all our heartist.

Scope: This policy applies to all team members based on ACCOR's Sustainability Program.

Purpose: This policy is intended to guide the property towards sustainable management. The hotel is required to set its own environmental management procedures in line with this policy and with due consideration for its specific location.

PROCEDURE

1. Environmental awareness

- a. We will maintain awareness among our team members on environmental issues, preservation of local cultures and the necessity for everyone to act in a responsible manner.
- b. We will communicate to our team members the environmental practices that need to be implemented at the workplace as well as other simple environment-friendly measures that they can apply in their everyday lives.
- c. We will encourage our team members to participate in and support environmental initiatives.

- d. We will communicate our environmental commitment to guests and give them an option to support us in our green initiatives
- e. We will extend awareness on environmental issues, local cultures and best practices to the local community through our Cambodian Youth Development program.

2. Energy

Reducing energy consumption will help to reduce our environmental impact and at the same time lower energy costs. To minimize energy consumption, we will:

- a. Take steps to make our workplace more energy efficient
- b. Reduce the use of fossil fuels and opt for renewable energies
- c. Maintain our machinery and equipment in good working condition
- d. Opt for energy efficient equipment and low energy appliances
- e. Ensure optimal use of plant and machinery
- f. Use timers, sensors and other devices that regulate energy consumption
- g. Make use of solar energy wherever applicable
- h. Reduce loss of energy, for example by using insulated pipes to carry hot and chilled fluids
- i. Set objectives for limiting consumption, regularly monitor progress and improve processes.

3. Water

With global warming, sources of freshwater are being depleted faster than they can be recharged by natural processes. Water conservation is therefore becoming essential and as a responsible company, we will:

- a. Continually find ways to reduce water consumption
- b. Reduce water losses by regularly checking for leaks and using SARA maintenance platform to inform our Engineering Team once notice any leaking
- c. Install sensors, regulators and other water saving devices
- d. Ensure efficient use of laundry equipment
- e. Sensitize both employees and guests on the responsible use of water
- f. Offer to guests the option of reusing towels and bed sheets
- g. Limit the use of freshwater by
 - i. Capturing and using rainwater wherever possible
 - ii. Using recycled greywater for irrigation
- h. Target set in 2025 for minimizing water consumption is to reduce water consumption by 5% compared to 2024, monitor and analyze periodically.

4. Waste

We generate an important amount of waste that constitutes a major pollutant affecting both the environment and public health. We will do utmost to avoid, recycle and reuse in order to reduce its impact on the environment. Our Waste Management Plan will include the following:

- a. Limit the use of disposable packaging for the hotel supplies
- b. Use bio-degradable products and materials whenever the option is available
- c. Limit individual packaging of hygiene products in bedrooms
- d. Organize sorting and separating recycling waste
- e. Collect and recycle cooking oil for permitted uses
- f. Separate and collect grease from food stuffs
- g. Organize recycling materials such as paper/cardboard/glass/plastic packaging, metal cans, ink cartridges, restaurant organic waste, garden green waste, etc.

- h. Engage in projects with the local community for the reuse of recycled materials
- i. Safely dispose of hazardous waste such as batteries, electrical and electronic devices, fluorescent bulbs/tubes, etc.
- j. Organize and/or support clean-up of the surrounding environment
- k. Work towards being single-use plastic free for our guests.

5. Green Procurement

Green procurement or Environmentally Preferable Purchasing (EPP) is the practice of procuring products and services that are less harmful to the environment (land, air and water) and to all species that depend on the environment for survival. Green products are those that are produced with less harmful materials or which upon usage / consumption would have a minimal impact on the environment.

We will conduct Environmental Purchasing and Procurement (EPP) whenever green options are available, while giving due consideration to guests' satisfaction, company standards and reasonable costing. Our green purchasing measures will include the following:

- a. Encourage and favor eco-friendly and power-efficient products
- b. Prefer recycled and bio-degradable products
- c. Buy seasonal and locally produced goods as far as possible and thus avoid transport energy
- d. Buy in bulk to reduce packaging waste
- e. Favor less harmful fertilizers and cleaning agents
- f. Select eco-friendly designs and eco-labelled products
- g. Purchase from sources that are less polluting or use clean technology
- h. Encourage and prefer vendors who use recycled packaging material. Explore the possibilities of further reuse and/or recycling with the vendor
- i. Green the supply chain by seeking vendors who share our values and have in place an environment management system.

6. Destination Protection

The natural environment is one of the primary attractions for leisure visitors. In order to develop sustainable tourism, we will:

- a. Ensure protection of the natural and cultural values of the area while developing and creating recreational facilities / activities for our guests
- b. Participate in efforts to restore habitat whenever possible
- c. Promote local food, entertainment, culture and cottage industry
- d. Engage with local people when developing cultural attractions
- e. Offer guests and promote souvenirs that are made locally, using eco-friendly materials and that reflect local nature
- f. Provide guests with a list of environmental-friendly products and local souvenirs they may buy
- g. Increase the number of green / environmental spaces around the resort for guests to enjoy and immerse themselves in.

7. Conservation of Wildlife and Habitats

We shall take every possible step towards the conservation of wildlife and their habitats. As a minimum, we shall:

- a. Ensure wastewater is not discharged in the ocean
- b. Use ecological or organic fertilizers
- c. Sensitize our team members and guests about the negative environmental impact of littering on the

beach and in the sea

- d. Ensure all trash is properly disposed of and no debris is left on the beach
- e. Encourage and support the clean-up of the marine and coastal environment
- f. Comply with local conservation policies
- g. Planting trees to contribute to reversing the warming of our planet and the rising temperature of our oceans
- h. Not detaining any captive wildlife on properties grounds, except for wildlife breeding farms, rescue or reintroduction, according to the law and best practices.

8. Biodiversity

Biodiversity boosts ecosystem productivity where each species, no matter how small, has an important role to play. To protect biodiversity, we will:

- a. Reduce our use of insecticides, weed killers, fungicides
- b. Use organic fertilizers as far as possible
- c. Use environmentally friendly products for cleaning
- d. Buy sustainably harvested seafood and agricultural products
- e. Water plants in a rational way
- f. Use indigenous plants for landscaping and minimizing light and noise
- g. Plant at least one tree every year
- h. Submit financial charitable contributions for conservation and project for conservation and habitat protection.
- i. Ensure that invasive alien species are not introduced in our gardens and landscapes
- j. Not displaying or selling products made from threatened or protected plant and animal species
- k. Participate in ecological restoration initiatives in the local area.
